

# CEL Student Testimonials

The journey was amazing! I learned a lot of cybersecurity and hope to become an ethical hacker one day. If someone were to ask me where I studied the basics of cybersecurity then I would suggest them to join this course since it is a lot of fun. I hope you guys will train future students well like you taught me.

Thank you Codevita team for your guidance.

**-Tejaswi Tenkabail**

This programme helped me develop a solid foundation in cybersecurity fundamentals and the team couldn't have done this any better. Would definitely recommend this to someone who wants to transition into the cybersecurity field but doesn't know where to start.

**-Mohan Patil,**

The course pedagogy is amazing and the weekly checkpoint exams system deployed by Codevita Live definitely amplifies one's learning outcomes. The support ecosystem is exemplary. 10/10 from my side!

-Aditya Gupta

This compact programme helped me to explore different career paths in cybersecurity and helped me gain clarity on how exactly I want my cybersecurity career to pan out. Was mesmerised from starting to end!
